EDUCATION

Lovely Professional University

Bachelors of Tech in Computer Science and Engineering

Phagwara, Punjab

Aug. 2021 – May 2025

Courses : *Object Oriented Programming (C++)*, *Computer Programming (C)*, *Python Programming*, *Programming in JAVA*, *Data Structure & Algorithm*, *Design & Analysis of Algorithms*, *Database Management System*, *Computer Networks*, *Computer Organization & Design*, *Software Engineering*, *Operating Systems*, *Discrete Mathematics*, *Probability & Statistics*

Rainbow Modern School

Intermediate

Varanasi, Uttar Pradesh

May, 2021

EXPERIENCE & TRAINING

Java Full Stack Development Training & Project

June 2024 – July 2024

College, under Dinesh Kumar Sir

Punjab, India

- Developed front-end using **HTML**, **CSS**, **JavaScript**, and **React** built back-end with **Core Java**, **Spring**, and **Hibernate**
- Managed MySQL databases; utilized **Maven**, **Git**, and **RESTful APIs** for project management and development
- Created a comprehensive Student Result Management System using **Java**, **JSP**, **Tomcat**, and **MySQL** seamlessly integrating front-end and back-end components to demonstrate independent project execution and full-stack development proficiency.

The Urban Learning Internship Program (TULIP Program)

April 2023 – June 2023

Ministry of Housing and Urban Affairs, Government of India

New Delhi, India

- Directed development of **Utkarsh Rozgar Web Portal**, enhancing user engagement by **30%** and reducing job search time by **25%**
- Presented project outcomes to Ministry's Joint Secretary, highlighting **15% increase** in user satisfaction and **20% rise** in job placements
- Contributed to tech stack selection, **UI design**, and **development**, gaining expertise in **HTML**, **CSS**, **React JS**, **Node JS**, and **MongoDB**

PROJECTS

Report Card Generator — Link

[Apr 2024 – May 2024]

- Developed a Student Result Management System using **JSP**, **HTML**, **CSS**, and **JavaScript** demonstrating front-end web development skills
- Integrated front-end and back-end using **Eclipse IDE**, **Apache Tomcat**, **MySQL**, and **iTextPDF** for document printing in Word or PDF formats
- Architected and deployed a scalable, end-to-end web application independently

KnowWow: Your Daily Dose of Facts — Link

May 2023

- Engaging Content Delivery: Developed an Android app using **API Ninja** and **MySQL** to fetch and display random and categorized facts, enhancing user engagement through a dynamic and interactive interface.
- Efficient Data Handling: Utilized **Volley** for network operations and **RecyclerView** for seamless data presentation, ensuring smooth performance and a polished user experience.
- Tech Stack: KnowWow integrates **Android SDK**, **Volley**, **MySQL**, **RecyclerView**, **API Ninja**, and **REST**

TECHNICAL SKILLS

Languages: Java, Python, C++, SQL (MySQL), JavaScript, HTML/CSS, Kotlin

Developer Tools: Git, Maven, AWS, VS Code, Eclipse, REST, Android Studio

Framework: SpringBoot, Hibernate, JUnit, React
